- Tiger, a remarkably stylish chair, has been flawlessly manufactured without any compromise having been made on its comfortableness by combining 29 diverse forms, 56 metal pieces and 268 welded points. This incredible chair has been meticulously created by high tech equipment after a long R&D process. The upholstery is manufactured by expert craftsmen, using laser-cut, high-end technology machines. Tiger is a timeless chair that will remain to be a statement piece for decades to come. This chair can also be used outdoors, if it goes through cataphoretic coating process, which is an extra treatment that can be requested for orders of over 24 chairs.

- Zebra, a remarkably stylish chair, has been flawlessly manufactured without any compromise having been made on its comfortableness by combining 29 diverse forms, 56 metal pieces and 268 welded points. This incredible armchair has been meticulously created by high tech equipment after a long r&d process. The upholstery is manufactured by expert craftsmen, using laser-cut, high-end technology machines. Zebra is a timeless chair that will remain to be a statement piece for decades to come. This chair can also be used outdoors, if it goes through cataphoretic coating process, which is an extra treatment that can be requested for orders of over 24 chairs.
